Case No. 39576)	JANUARY 15, 2000
)	

REPORT BY IDAHO DEPARTMENT OF WATER RESOURCES AS TO PROGRESS OF SNAKE RIVER
BASIN ADJUDICATION AS OF DECEMBER 1999.

The following status report has been prepared by the Director of the Department of Water Resources as directed by the court's order of February 24, 1988. The report reflects the status of the Department's efforts as of the end of DECEMBER 1999 and reports changes from conditions reported in the appendices attached to the Status Report dated November 15, 1999.

Throughout this status report, the Snake River Basin Adjudication will be referred to as the SRBA, and the Idaho Department of Water Resources will be referred to as IDWR.

**APPENDIX 1
Overall Timeline for the Adjudication**

No change since October, 1996 Status Report.

APPENDIX 2 Landsat Data Analysis

No change since July, 1990 Status Report.

APPENDIX 3 Aerial Photography

No change since January, 1992 Status Report.

APPENDIX 4 Computer System and Data Base

Public inquiry access to the Adjudication/Water Rights database is available on a subscription basis. For more information on the dial-in service call the Adjudication Hotline (800) 451-4129.

APPENDIX 5 Staging/Claims Taking

During the two-year period ending in February 1990, 441,744 Round 1 notices were mailed to potential claimants in all of the 38 counties within the SRBA. A statewide Round 2 notice was mailed to 1,061 individuals on April 12, 1991 and had a deadline of May 13, 1991. The names for the statewide mailing were obtained from various lists of water use entities. Each action has contributed to additional claims being filed as shown in the table below. Round 1.5 was mailed November 29, 1991 with a deadline of February 28, 1992, to known users of the Federal and State lands under permit, lease, claim or other entry methods.

Round 2 notices in seventeen (17) sub-basins have been completed. Round 2 service in Basins 29 and 63 in Ada and Canyon Counties are pending.

The claims filing status through December 1999 is shown in the table segregated on IDWR basin boundaries. The Round 2 heading is divided in two (2) columns. The Notices column indicates the number of Round 2 Notices of the SRBA mailed. A date in this column indicates the filing deadline for Round 2.

A figure in the Round 2 column indicates the filing deadline for Round 2 has passed and is the number of claims filed after the Round 2 mailing. The Round 2 figure is included in the total filed records for the basin. Pending indicates IDWR is investigating unclaimed water rights or researching ownership.

On March 25, 1993, the United States filed over 50,000 claims. All of the claims filed by the United States have been processed and are represented in the IDWR computer database. The Court dismissed by decree 3,705 claims based on federal law for non-consumptive uses retaining 71 claims of this type. The Court has also dismissed by decree over 1,500 Bureau of Land Management claims for consumptive uses. In July 1998, the United States acting through the U.S. Forest Service withdrew 2,368 claims based on State Law for water rights developed under the Multiple Use Sustained Yield Act.

APPENDIX 8
Public Information Program (PIP)

A public information effort has been developed to inform the public about the Partial Decree plan and objectives for the SRBA Court issuance of domestic and/or stockwater rights. IDWR Western Region mailed individual preliminary recommendations to claimants of Irrigation and Other rights on February 4, 2000 for Basin 65, Part II. A public information meeting for claimants who received Preliminary Recommendation in Basin 65, Part II is scheduled at the Garden Valley High School, Music Room, 1076 Banks-Lowman Road in Garden Valley Idaho on February 22, 2000 at 7:00 p.m.

APPENDIX 9
Water System Investigation and Review of Claims

IDWR has begun investigating in the subsequent reporting areas (RA) for irrigation and other rights. A Director's Report was filed for Basin 41 on November 2, 1999, and for Part 1 (the North Fork drainage) of Basin 65 on December 13, 1999.

The following table is the result of further investigating the remaining claims and records filed in the adjudication through December within the next reporting areas. The numbers shown are claims not yet reported or presented to the Court. Preliminary reports for these basins will be mailed later this year, although RA15 will come in two more (2) stages.

Reporting Area	7	8	15
Basin	43	33	65
AJs	1,553	435	2,911
Fed Law Claims	1	1	14
United States w/d			
State Law Claims	1,552	434	2,897
D&S	344	90	788
IRR	1,175	320	1,880
OTHER	33	24	229

The row "AJs" are the number of adjudication claims existing in IDWR's computer for the SRBA.

"United States w/d" are the claims of the United States which the Court disallowed by Decree: National Park Service claims (2) and U.S. Forest Service claims (over 3,700).

"State Law Claims" are the records in SRBA representing current State Law claims in SRBA that must be investigated by IDWR. Within this group are the following subsets. Any Claims based on State law and Federal Law (Dual Claims) are shown only as State Law claims.

"D&S" represent those claims that have as uses only either domestic or stockwater or both but no other uses.

"IRR" are claims that have at least one of the uses as irrigation. Other uses may also be claimed in association with irrigation.

"OTHER" represent claims that have any uses not represented in the previous two subsets including claims filed for stockwater and wildlife.

APPENDIX 10
Proposed Round Two Notification

The District Court entered the Second Round Service Order on October 16, 1990, which approves the Snake River Basin Adjudication plan for second round service. Appendix 5 identifies the basins that have Round 2 Service in progress and completed.

** The United States and the Nez Perce Tribe filed collectively 1,820 claims in RA 19, 22, and 24.

The year 1998 marked a milestone or watershed for IDWR and the SRBA as nearly 60 percent of about 175,000 claims submitted to IDWR have been reported or delivered to the Court (over 100,000) or withdrawn (over 31,000). Most of the small D & S claims have been reported in all reporting areas and basins. The first six (6) reporting areas are complete save late claims submitted to IDWR through the Court after the Director's Report was filed. With most major legal issues resolved and relying on its experience and confidence to deliver director's reports in a timely manner, IDWR plans to culminate reporting the remainder of the water right claims for irrigation and other uses by early in 2005.

APPENDIX 12 Objections/Negotiations

Pursuant to Administrative Order No. 9, the court has to date issued settlement conference orders in 2,001 subcases in Basins 34, 36 and 57, of which 481 conferences were held and 460 conferences were vacated. Standard Form Five's (SF5), documenting settlement of a subcase, have been filed in 1,237 subcases. The court has begun holding hearings on the SF5's. In addition, the court has entered orders setting scheduling conferences in 923 subcases in Basins 34, 36 and 57.

District Court Appeals From IDWR

Pursuant to Idaho Code §42-1701A, any person who is aggrieved by a final decision or order of the Idaho Department of Water Resources is entitled to judicial review. Since some of the issues on appeal from decision of the director may be of interest to the parties in the Snake River Adjudication and since venue for these cases is in other courts, the director in the monthly status report will include a listing of new or pending appeals under Idaho Code §42-1701A. This listing of such cases (by case title and county civil number) will include a brief description of the issue or issues on appeal.

Case Title	County/ Civil Number	Issues on Appeal & Status
Barron v. IDWR	GoOding County Case No. CV-98-00749	Appeal from denial of water right transfer application filed with district on November 18, 1998. District Court affirming IDWR appeal to Supreme Court on August 25, 1999. Breifing completed February 17, 2000.
Gibson Jack Joint Venture v. IDWR,	Bannock County Case No.	Case dismissed on December 7, 1999, upon withdrawal of appeal.
Rim View Trout Co. v. IDWR	Ada County Case No. 94822	Appeal of letter approving design concept for measuring devices subject to conditions. Includes appeal of original order requiring measuring devices, which was previously dismissed in Ada County Civil No. 92847, which dismissal was upheld in S.C. No. 18704. IDWR filed notice of appearance August 22, 1991. Status report filed September 16, 1992. Case put on inactive calendar on April 19, 1993. Case to be dismissed upon SRBA Court approval of stipulated agreement on Niagara Springs.

Rowan & Riley v. IDWR	Madison County Case No. CV-1999-58	Appeals from final orders issuing two water right licenses to owners of a split water right. Appeals filed January 29, 1999. Motion to hold in abeyance pending action by SRBA Court filed January 29, 1999.
Sagewillow, Inc. v. IDWR	Butte County Case No. CV-96-39 Supreme Ct. No. 24431	Appeal from April 8, 1996 by IDWR order partially denying the transfer of multiple water rights based on a determination that some of the rights had been forfeited in whole or in part. Appeal to District Court filed May 7, 1996. IDWR decision affirmed December 4, 1997. Appeal to Idaho Supreme Court filed January 15, 1998. On March 9, 1998, District Court filed Final Judgment and Order. Amended Notice of Appeal filed March 11, 1998. Supreme Court briefing completed March 8, 1999. Oral Argument held November 4, 1999. Awaiting decision.
Sessions v. IDWR , et al.	Cassia County Case No. CV-97-1044	Appeal by applicant filed December 9, 1997, from IDWR decision issuing a water right permit and granting a transfer of a water right upon conditions. The appeal generally challenges the legal and factual basis for IDWR's decisions. Cross-appeal by Protestant Jones filed December 23, 1997. Order governing judicial review issued December 15, 1997. Agency transcript and record filed with the Court March 20, 1998. Order placing case on Inactive status entered April 1, 1999.

APPENDIX 16
Pending Applications for Change in Use in Reported Areas

Pursuant to Idaho Code 942-222, any person who desires to make a change in use of a water right must file an application for approval by IDWR. Since the water right that is sought to be changed would be the subject of an Objection to the Director's Report, the need may arise for coordination of change in use proceedings with the SRBA. To promote such coordination, IDWR is providing a list of pending applications for change in use in reported areas.
